American Journal of Physiology: Regulatory, Integrative and Comparative Physiology

No. 1. JANUARY 1986

Effects of α-adrenergic blockade on cardiovascular responses to static exercise in cats
T. G. Waldrop, M. Bielecki, W. J. Gonyea, and J. H. Mitchell R1

Involvement of protein synthesis in circadian clock of *Aplysia* eye
D. P. Lotshaw and J. W. Jacklet R5

Corticosteroids and plasma restitution after hemorrhage and hypothalamic lesions
S. L. Bealer R18

Ionic requirements for intracellular pH regulation in rainbow trout hepatocytes
P. J. Walsh R24

Attenuation of hindlimb vasodilation in heat-stressed baboons during dehydration
R. M. Thornton and D. W. Proppe R30

Diurnal variations in cardiovascular integration
B. T. Engel R36

Renal excretion in gull chicks: effect of parathyroid hormone and calcium loading
N. B. Clark and L. L. S. Mok R41

Postnatal development of pulmonary alveoli: modulation in rats by thyroid hormones
D. Massaro, N. Teich, and G. D. Massaro R51

Elastic energy storage in rigored skeletal muscle cells under physiological loading conditions
J. G. Tidball and T. L. Daniel R56

Heterogeneous mechanical response of rat knee menisci to thermomechanical stress
R. F. Zernicke, A. C. Vailas, S. R. Shaw, R. A. Bogey, T. J. Hart, and J. Matsuda R65

Phosphofructokinase control in muscle: nature and reversal of pH-dependent ATP inhibition
G. P. Dobson, E. Yamamoto, and P. W. Hochachka R71

Vascular smooth muscle responsiveness in a hibernator: effects of season and temperature
V. M. Miller, W. L. Miller, and F. E. South R77

α_2-Noradrenergic feeding rhythm in paraventricular nucleus: relation to corticosterone
P. Bhakthavatsalam and S. F. Leibowitz R83

Lower intestinal modification of ureteral urine in hydrated house sparrows
D. L. Goldstein and E. J. Braun R89

Brain temperature changes coupled to sleep states persist during interleukin 1-enhanced sleep
J. Walter, D. Davenne, S. Shoham, C. A. Dinarello, and J. M. Krueger R96

Neurotransmitter modulation of VIP release from cat cerebral cortex
J.-Y. Wang, T. L. Yaksh, G. J. Harty, and V. L. W. Go R104

Radioiodide transfer across sheep placenta
J. F. Canning, T. E. Stacey, R. H. T. Ward, and R. D. H. Boyd R112

Central action of glucagon in rat hypothalamus
A. Inokuchi, Y. Oomura, N. Shimizu, and T. Yamamoto R120

Glucose transport and metabolism in the brain
P. J. Robinson and S. I. Rapoport R127

SPECIAL COMMUNICATIONS

Fetal auditory brain stem response: external and intrauterine auditory stimulation
M. A. Plessinger and J. R. Woods, Jr. R137

Technique for continuous measurement of compliance in isolated vascular segments
L. B. Bell, E. J. Zuperku, and J. P. Kampine R142

No. 2. FEBRUARY 1986

Propylthiouracil causes phase delays and circadian period lengthening in male and female hamsters
L. P. Morin, M. L. Gavin, and J. E. Ottenweller R151

Effects of ovine prolactin on calcium uptake and distribution in *Oreochromis mossambicus*
G. Flik, J. C. Fenwick, Z. Kolar, N. Mayer-Gostan, and S. E. Wendelaar Bonga R161

Effects of cold acclimation in dystrophic hamsters: reduction of heart necrosis
M. Desautels and R. A. Dulos R167

Microcomputer-assisted metabolic studies of voluntary diving of Weddell seals
M. Guppy, R. D. Hill, R. C. Schneider, J. Qvist, G. C. Liggins, W. M. Zapol, and P. W. Hochachka R175

Mechanisms of adrenergic control of blood pressure in developing rats
E. Mills and P. G. Smith R188

Angiotensin II attenuates baroreflexes at nucleus tractus solitarius of rats
R. Casto and M. I. Phillips R193

Photic cues induce multiple neuroendocrine adjustments in testicular function
J. L. Blank and C. Desjardins R199

Prostaglandin E_2 and muscle proteolysis: effect of burn injury and cycloheximide
C. J. McKinley and J. Turinsky R207

Can cultured teleost hepatocytes show temperature acclimation?
M. Koban R211

Effects of atriopeptin infusion versus effects of left atrial stretch in awake dogs
K. L. Goetz, B. C. Wang, P. G. Geer, W. D. Sundet, and P. Needleman R221

Independent Na^+ and Cl^- active transport by urinary bladder epithelium of brook trout
W. S. Marshall R227

Fetal renal contribution to amniotic fluid osmolality during maternal hypertonicity
L. L. Woods R235

Renin, ACTH, and adrenocortical function during hypoxia and hemorrhage in conscious rats
H. Raff, R. B. Sandri, and T. P. Segerson R240

Effects of ovarian hormones on energy balance and brown adipose tissue thermogenesis
D. Richard R245

Interference with central actions of angiotensin II suppresses sodium appetite
M. L. Weiss, K. E. Moe, and A. N. Epstein R250

Studies on avian erythrocyte metabolism. XIV. Effect of CO_2 and pH on P_{50} in the chicken
R. Isaacks, P. Goldman, and C. Kim R260

Interaction of osmotic and volume stimuli in regulation of neurohypophyseal secretion in rats
E. M. Stricker and J. G. Verbalis R267

Metabolic response to a specific lipid-depleting factor in parabiotic rats
R. B. S. Harris and R. J. Martin R276

Effects of sodium depletion and angiotensin II on osmotic regulation of vasopressin
C. E. Wade, L. C. Keil, and D. J. Ramsay R287

Pantothenic acid transport and metabolism in the central nervous system
R. Spector R292

Oxygen equilibrium curve shape and allohemoglobin interaction in sheep whole blood
L. A. Maginniss, A. J. Olszowka, and R. B. Reeves R298

Water and nonelectrolyte permeability in brain synaptosomes isolated from normal and uremic rats
A. S. Verkman and C. L. Fraser R306

Ontogeny of epinephrine-induced anorexia in rats
A. M. Rodriguez-Zendejas, G. Chambert, M. C. Lora-Vilchis, A. N. Epstein, and M. Russek R313

No. 3. MARCH 1986

Effect of deep hypoxia on acid-base balance in trout: role of ion transfer processes
S. Thomas, B. Fievet, and R. Motais R319

Peptide nature of two mosquito natriuretic factors
D. H. Petzel, H. H. Hagedorn, and K. W. Beyenbach R328

Diluting segment in avian kidney. I. Characterization of transepithelial voltages
H. Nishimura, M. Imai, and M. Ogawa R333

Diluting segment in avian kidney. II. Water and chloride transport
T. Miwa and H. Nishimura R341

Carbonic acid buffer changes during complete brain ischemia
R. P. Kraig, W. A. Pulsinelli, and F. Plum R348

Alterations in β-adrenergic stimulation of myocardial adenylate cyclase in endotoxic rats
F. D. Romano and S. B. Jones R358

Endogenous hormones and regulation of uterine blood flow during pregnancy
D. Caton and P. S. Kalra R365

Food restriction and reproductive development: male and female mice and male rats
G. D. Hamilton and F. H. Bronson R370

Body temperature and rate of O_2 consumption in Chinese pangolins
M. E. Heath and H. T. Hammel R377

Effects of diet and photoperiod on NE turnover and GDP binding in Siberian hamster brown adipose tissue
J. F. McElroy, P. W. Mason, J. M. Hamilton, and G. N. Wade R383

Dissociation of sympathetic and thermogenic activity in brown fat of Syrian hamsters
J. M. Hamilton, P. W. Mason, J. F. McElroy, and G. N. Wade R389

Interaction between CRF and angiotensin II in control of ACTH and adrenal steroids
M. Keller-Wood, B. Kimura, J. Shinsako, and M. I. Phillips R396

Absence of fast negative feedback control of ACTH and renin in fetal and adult sheep
C. E. Wood R403

Regulation of hepatic glucose output during exercise by circulating glucose and insulin in humans
A. B. Jenkins, S. M. Furler, D. J. Chisholm, and E. W. Kraegen R411

Stimulating fastigial nucleus pressor region elicits patterned respiratory responses
L. O. Lutherer and J. L. Williams R418

Effect of restriction of placental growth on umbilical and uterine blood flows
J. A. Owens, J. Falconer, and J. S. Robinson R427

Renal afferent input to thoracolumbar spinal neurons of the cat
W. S. Ammons R435

Osmotic regulation of plasma vasopressin and oxytocin after sustained hyponatremia
J. G. Verbalis, E. F. Baldwin, and A. G. Robinson R444

Mammalian metabolite flux rates in a teleost: lactate and glucose turnover in tuna
J.-M. Weber, R. W. Brill, and P. W. Hochachka R452

Diffusion permeability of cyanocobalamin in human placenta
D. M. Willis, J. P. O'Grady, J. J. Faber, and K. L. Thornburg R459

Substance P, 5-hydroxytryptamine, and bradykinin stimulate abdominal visceral afferents
W. Y. W. Lew and J. C. Longhurst R465

Electrical activity and sodium transfer across in vitro pig placenta
C. P. Sibley, B. S. Ward, J. D. Glazier, W. M. O. Moore, and R. D. H. Boyd R474

Sympathetic activity, lipids accumulation, and arterial wall morphology in rabbits at high altitude
K. Fronek and N. Alexander R485

Development of mammalian endocochlear potential: normal ontogeny and effects of anoxia
N. K. Woolf, A. F. Ryan, and J. P. Harris R493

Regional circulatory responses to hypocapnia and hypercapnia in bar-headed geese
F. M. Faraci and M. R. Fedde R499

pH-induced hysteretic properties of phosphofructokinase purified from rat myocardium
S. C. Hand and J. F. Carpenter R505

Reversible dissociation and inactivation of phosphofructokinase in the ischemic rat heart
J. F. Carpenter and S. C. Hand R512

Plasma clearance, metabolism, and tissue accumulation of ^{3}H-labeled catecholamines in trout
N. P. Nekvasil and K. R. Olson R519

Extraction and metabolism of circulating catecholamines by the trout gill
N. P. Nekvasil and K. R. Olson R526

Angiotensin extraction by trout tissues in vivo and metabolism by the perfused gill
K. R. Olson, D. Kullman, A. J. Narkates, and S. Oparil R532

No. 4. APRIL 1986

Pre- and postabsorptive insulin secretion in chronic decerebrate rats
F. W. Flynn, K. C. Berridge, and H. J. Grill R539

Extra-abdominal pressure alters food intake, intragastric pressure, and gastric emptying rate
A. Geliebter, S. Westreich, R. N. Pierson, Jr., and T. B. Van Itallie R549

Effect of amine on temperature-responsive neuron in slice preparation of rat brain stem
T. Watanabe, A. Morimoto, and N. Murakami R553

Stimulation of ventromedial hypothalamus induces cold defense responses in conscious rabbits
A. Morimoto, N. Murakami, T. Ono, T. Watanabe, and Y. Sakata R560

Enhanced noradrenergic activity in kidney of Brattleboro rats with diabetes insipidus
R. L. Kline, K. P. Patel, and P. F. Mercer R567

Reoxygenation injury in isolated hepatocytes: effect of extracellular ATP on cation homeostasis
H. Hayashi, I. H. Chaudry, M. G. Clemens, M. J. Hull, and A. E. Baue R573

Excitatory and inhibitory interactions among renal and cardiovascular afferent nerves in dorsomedial medulla
R. B. Felder R580

Effect of atrial natriuretic factor in rat pregnancy
C. G. Kristensen, Y. Nakagawa, F. L. Coe, and M. D. Lindheimer R589

Effect of adrenalectomy and glucocorticoid replacement on development of obesity
M. R. Freedman, B. A. Horwitz, and J. S. Stern R595

Renal proximal tubule of flounder. I. Physiological properties
K. W. Beyenbach, D. H. Petzel, and W. H. Cliff R608

Renal proximal tubule of flounder. II. Transepithelial Mg secretion
W. H. Cliff, D. B. Sawyer, and K. W. Beyenbach R616

Effects of testosterone, estradiol, and temperature on neurons in preoptic tissue slices
N. L. Silva and J. A. Boulant R625

Suppression of renin release by antagonism of endogenous opiates in the dog
J. E. Szilagyi, J. Chelly, and M.-F. Doursout R633

Canine renal responses to atrial stretch or intravenous saline are not attenuated at night
K. L. Goetz and B. C. Wang R638

Osmotic and volemic regulation of plasma arginine vasotocin in conscious domestic fowl
J. N. Stallone and E. J. Braun R644

Regulation of plasma arginine vasotocin in conscious water-deprived domestic fowl
J. N. Stallone and E. J. Braun R658

Physical and metabolic correlates of sexual inactivity in aged male mice
F. H. Bronson and C. Desjardins R665

Dose-related suppression of feeding by intraportal glucagon infusion in the rat
B. G. Weick and S. Ritter R676

Glucagon-induced inhibition of feeding is impaired by hepatic portal alloxan injection
S. Ritter, S. C. Weatherford, and S. L. Stone R682

Proteolytic enzymes in human eccrine sweat: a screening study
N. Horie, H. Yokozeki, and K. Sato R691

Critical radius of endotherms
W. P. Porter, D. F. Parkhurst, and P. A. McClure R699

Response of hamster circadian system to transitions between light and darkness
H. E. Albers R708

Renal secretion of amino acids in ophidian reptiles
S. Benyajati and W. H. Dantzler R712
